

Advance bulletin
1971 CENSUS OF CANADABulletin préliminaire
RECENSEMENT DU CANADA 1971

POPULATION BY ETHNIC GROUP

This report presents final population counts of the 1971 Census, showing a distribution by ethnic group. Figures are shown for Canada, provinces, census divisions, incorporated cities, towns and villages of 10,000 and over, as well as for census metropolitan areas.

More detailed classifications of ethnic groups by age, language, etc., will be issued at later dates as part of the regular volume series of final reports of the 1971 Census. This advance report is released to make available totals for the numerically large ethnic groups at an earlier date.

For census purposes, a person's ethnic group is traced through the father. In the 1971 Census, respondents were asked the question "To what ethnic or cultural group did you or your ancestor (on the male side) belong on coming to this continent?". If applicable, the language spoken at that time by the person or the paternal ancestor was used as a guide in determining the ethnic group.

The information in this report was collected on a sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100 p.c. basis. The latter figures, of course, represent the official population counts (see Catalogue Nos. 92-704 to 92-707)."

The 1971 figures in this report have been subjected to the confidentiality procedure introduced in the 1971 Census to prevent the possibility of associating small figures with any identifiable individual. This technique will be described in the reports of the 1971 Census volume series.

Each bulletin of the 1971 Census volume series will include measures of reliability in the form of estimates of the mean square error for sets of characteristics covered in that bulletin. The user interested in obtaining an indication of the reliability of these advance data should refer to the appropriate bulletin in the volume series.

POPULATION SELON LE GROUPE ETHNIQUE

Ce bulletin présente les chiffres définitifs de population, au recensement de 1971, du Canada, des provinces, des divisions de recensement, des cités, villes et villages constitués de 10,000 habitants et plus et des régions métropolitaines de recensement, selon le groupe ethnique.

Des classements détaillés selon l'âge, la langue, etc., paraîtront ultérieurement dans le cadre de la série des volumes du recensement de 1971. L'objet de ce bulletin préliminaire est de communiquer le plus tôt possible les résultats concernant les groupes qui sont numériquement les plus importants.

Aux fins du recensement, le groupe ethnique est déterminé par celui du père. En 1971, on a demandé à chaque personne: "À quel groupe ethnique ou culturel appartenait votre ancêtre paternel (ou vous-même) à son arrivée sur le continent?". Le cas échéant, la langue parlée à ce moment-là par le recensé ou par son ancêtre paternel servait de guide pour déterminer le groupe ethnique.

"Les renseignements de la présente publication ont été recueillis par échantillonnage. Il s'ensuit que les chiffres de population pour une région géographique donnée ne sont pas forcément les mêmes que ceux des publications dont les données avaient été recueillies à 100 p. 100. Bien entendu, c'est ce dernier chiffre qui représente le dénombrement officiel de la population (voir publications nos 92-704 à 92-707 au catalogue)."

La confidentialité des données de 1971 présentées ici est assurée par la méthode utilisée au recensement de 1971 pour interdire la possibilité d'associer des chiffres de faible importance à une personne en particulier. Une description de cette technique figurera dans les bulletins de la série des volumes du recensement de 1971.

Chaque bulletin de la série des volumes du recensement de 1971 renfermera des mesures de fiabilité sous forme d'estimations de l'erreur quadratique moyenne relativement aux groupes de caractéristiques observées. L'utilisateur désireux de connaître le degré de fiabilité de ces données préliminaires devra consulter le bulletin approprié de la série des volumes.
